

The Beauty of Stone. *Simplified.*

Waypost Premium Stone Siding
Natural Stone Look.
Easy Installation.

About Waypost Stone Siding

Interlocking panels create beautiful seamless corners.

Waypost's interlocking corners provide a seamless look and cover more square footage. No cutting is required.

Corners come in varying widths to stagger vertical joints and are 9" tall x 1"-2" thick.

Professional Finished Appearance

Waypost's line of accessories provide the clean finished details of a professional installation.

Easy Installation

No special tools are required, and it can be installed year round.

Easy To Cut

To custom fit Waypost, all you need is a circular saw and tin snips.

Water Intrusion Is Never A Problem.

Waypost's integral drainage plane is designed to eliminate water and give you peace of mind.

Product Strength Reduces Breakage.

Waypost's high compression strength aggregate tests at more than twice the industry average.

50-Year Limited Warranty

Waypost stands by its product. It's designed and tested to withstand harsh exterior climates, but wonderfully suited for interiors too.
